Code

```
print(arr2[:, 1])
```

```
[[10 20]
 [40 50]]
[20 50 80]
```

[9]:
```
myarray =

user_condi

required_d
result_dat

print('Dat
result_dat
```

```
Enter the threshold value 25
Data based on the condition that each value should be > 50
```

[9]:
```
array([30, 40, 50, 60, 70, 80, 90])
```

[ ]:
